INDUSTRIES DEPARTMENT OBTAINS NEW CONTRACT

TradeWinds Services Industries Department recently obtained a \$720,000 contract from the U.S. Department of Defense to produce 45,000 hospital duty uniforms for the five branches of the military. The number of employees in the sewing department will almost double, going from the current 43 employees, to 83. The new contract was the result of a focus on business development, said Helen Rutkowski, Director of Industries. TradeWinds continues to work on procuring other government contracts in order to provide meaningful employment for individuals with special needs and at the same time helping to provide funding to other services for both children and adults at TradeWinds.
